Company Information

Vision

A world-classed construction company with a long-termed partnership philosophy.

Mission

100% achievement in every construction project through a square of management indicators "QCDK"-- quality of works, cost controlling, delivery with punctuality, and Kaizen (continuous improvement).

Company Objective

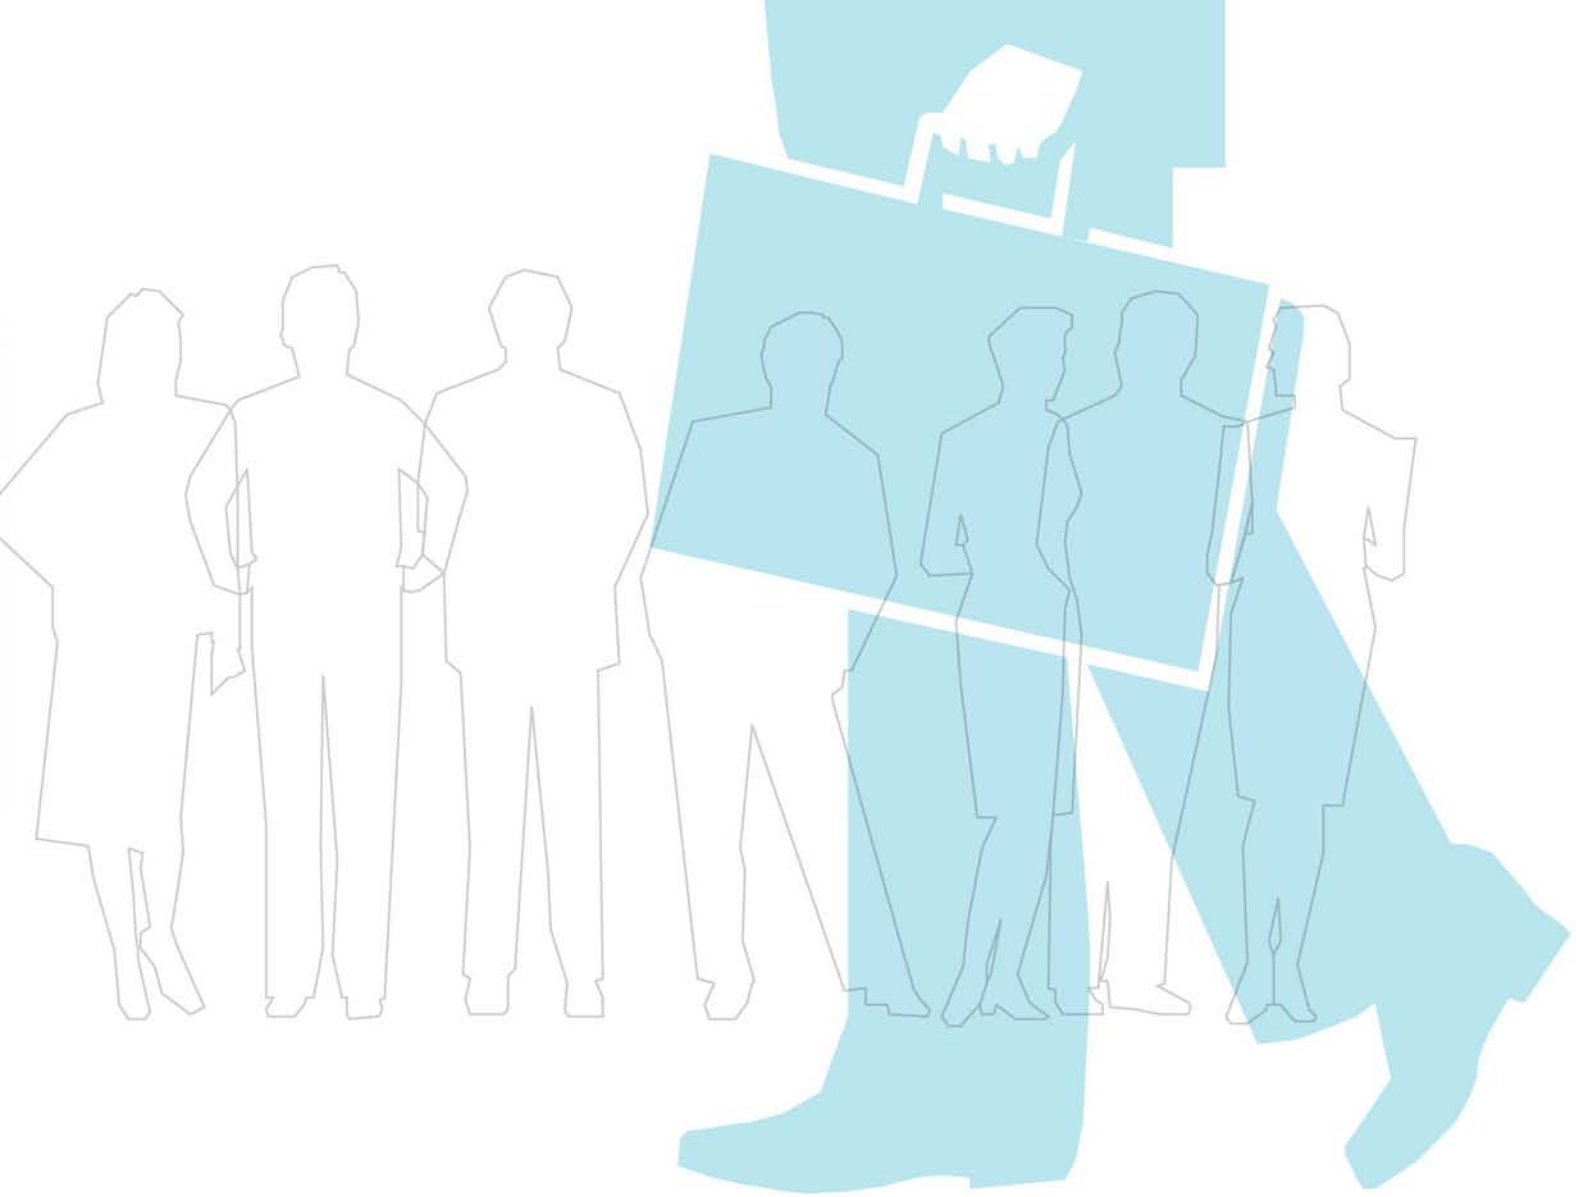

"To contribute to our customers success on construction projects along with qualified societies of our staff and supply chains as a sincere and competitive partner"

Scope of work

Vanbiv offers a full range of design, construction, and engineering services to diverse portfolio of clients in international project, on a comprehensive range of private and public sector projects. Customers can have our services since the design process up to installation depending on their needs.

VANBILV, a company under the umbrella of VAN UNION with total capital more than 100 million Baht, specializes in a variety of civil and utility-system works including design, plants, buildings, renovations, maintenance, electrical, power sub-station, communication, sanitary, environment, and air conditioning system.

Vanbilv was established in 1994 as "Marker Construction & Engineering Company Limited". In 1998, on the Asian financial crisis, Vanbiv has operate under a diversifying range of market condition. Meanwhile, most sectors of Thai economy were adversely impacted, the construction industry was particularly hard hit and those operating in that situation were required to manage in an environment of intensive competition. Against this background, Vanbiv has evolved into one of Thailand's leading construction and engineering companies, mostly serves to international customers.

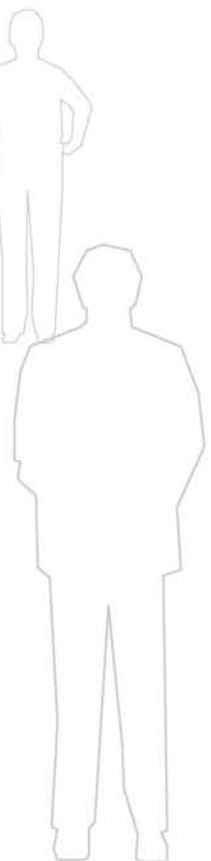

VANBILV Management System (VMS)

Cross-checking practice (C2) enhances the reliability of quality. Quality assurance engineers with fully checking lists reinforce quality verification beyond the first party inspection.

Activity-based costing (ABC) optimizes service cost structure to ensure customer with the highest return on their budget.

Critical path method (CPM) with fully typical break-down working structure and with strict milestone control (MC) accomplish the punctuality of work delivery

Learning organization (LO) and Kaizen (continuous improvement) maximize our knowledge and know-how to serve customers. Besides, specific training (ST) and on-the-job training (OJT) have been set for each staff to fit their responsibility.

Service Differentiation

Satisfaction guaranteed with unique quality management system: VMS and ISO 9001:2000

- C2, ABC, CPM&MC, LO, Kaizen, SCT&OJT

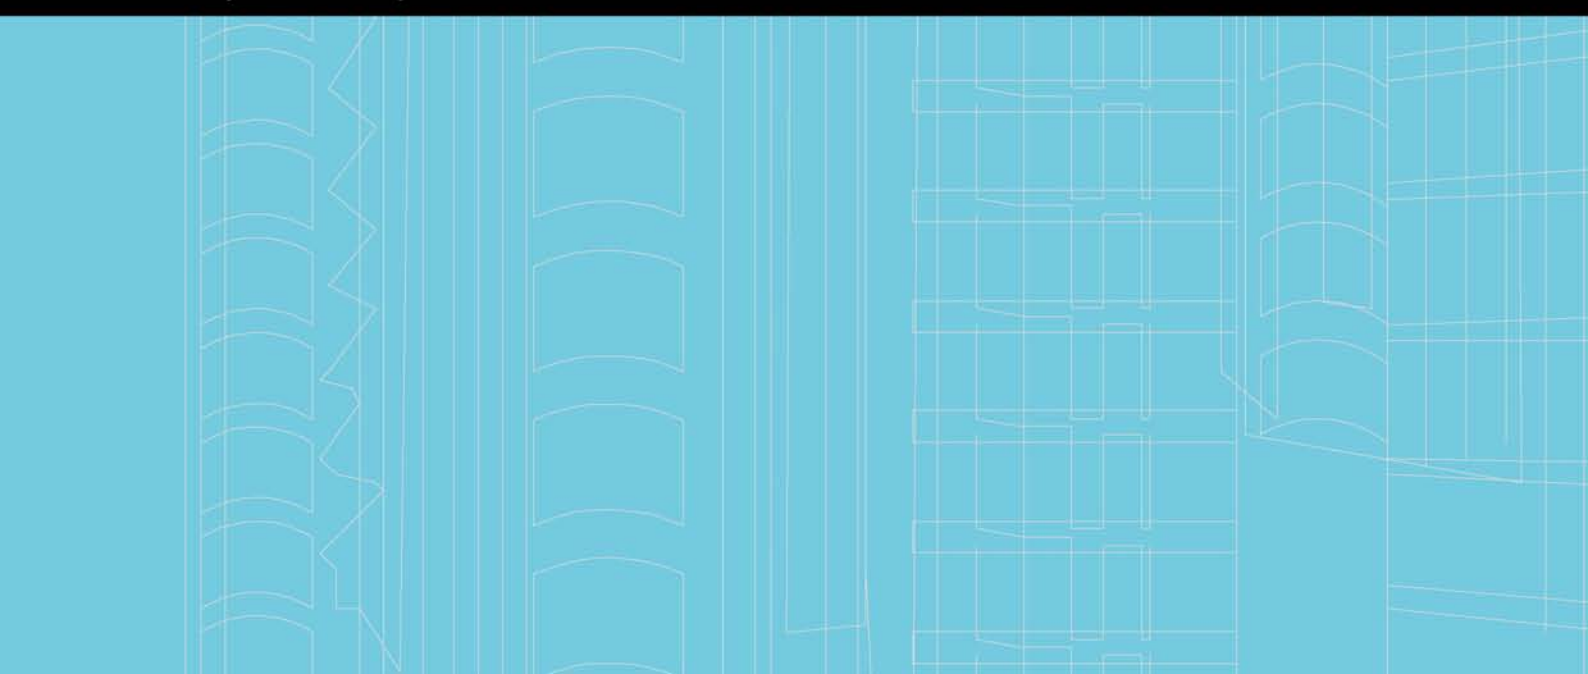

Long-term partnership philosophy implies

- Outstanding quality
- Competitive price on well-prepared proposal and project schedule
- On-time job delivery
- Continuous improvement

Working according to the planning and fully co-ordinating with customers

Able to customize the budget upon customer's requirement

One-year warranty

Quality Assurance
